4:00 PM*

*Books will be available for purchase
and will be signed by the Author.*

THE GREATEST HOAX

HOW THE GLOBAL WARMING CONSPIRACY THREATENS YOUR FUTURE

by U.S. Senator Jim Inhofe

Americans are over-regulated and over-taxed. When regulation escalates, the result is an increase in regulators. In other words, bigger government is required to enforce the greater degree of regulation. Bigger government means bigger budgets and higher taxes. "More" simply doesn't mean "better." A perfect example is the entire global warming, climate-change issue, which is an effort to dramatically and hugely increase regulation of each of our lives and business, and to raise our cost of living and taxes. In *The Greatest Hoax*, Senator James Inhofe reveals the reasons behind those perpetuating the Hoax of man-made global warming, who is benefiting from the general acceptance of the Hoax, and why the premise statements are blatantly and categorically false.

Elected to Congress from Tulsa in 1986 and first elected to the Senate in 1994, Senator Inhofe is one of the leading conservative voices in America and a strong advocate of common sense values. He serves as Ranking Member of the Senate Committee on Environment and Public Works and is a senior member of the Senate Armed Services Committee and the Senate Foreign Relations Committee. His priorities include strengthening our Nation's infrastructure, continuing strong environmental protections, and improving national security.
