

2020 POLICY PLATFORM

We, the undersigned, support the preservation and defense of free markets, limited government, and individual liberty. We are committed to advocating for policies that will advance these principles not only for our own prosperity and freedom, but for the prosperity and freedom of our children, grandchildren, and all Americans.

We will achieve this objective by pursuing and advocating for a conservative policy agenda for 2020, one built upon the following goals:

1. UNLEASHING ECONOMIC FREEDOM AND THE FREE MARKET.

President Trump's Tax Cuts and Jobs Act took great strides in lowering rates and simplifying the tax code, there is still more work to be done. We know the only sustainable way for American families to prosper is to get the government off their backs and allow them to stand on their own two feet. Coupled with lower taxes, we must slash government spending before the debt bomb explodes.

2. IMMIGRATION AND STRONG BORDERS.

Democrats think the way to fix our immigration crisis is by providing free health care for illegal aliens. But that will only make the problem even worse.

We must first secure the border and all ports of entry. Then, reform our immigration process to screen for national security and only allow those in who will agree to respect the rule of law. We should have a merit-based system that attracts the best and brightest to contribute to America's economy.

3. RESTORING CONSTITUTIONAL LIMITS.

Potential upcoming U.S. Supreme Court vacancies could decide the 2020 election. Any nominee to the Supreme Court and federal judiciary should pledge to only decide cases in the original intent of the Constitution. Civil liberties are under attack and our elected officials must stand up for the Bill of Rights, even for people they disagree with.

4. ROLLING BACK THE REGULATORY STATE.

It's time for Congress to take back their responsibility for passing laws instead of delegating it to unaccountable, unelected government bureaucrats who have the power to crush small businesses.

President Obama used the EPA (Environmental Protection Agency) to silently lay the groundwork for Green New Deal-style regulations. We must roll back harmful regulations that stunt economic growth.

5. ACHIEVING THE AMERICAN DREAM THROUGH JUSTICE REFORM.

President Trump signed the FIRST STEP Act into law, which aims to reduce recidivism rates and modestly change sentences for nonviolent offenses. Now, we must pursue more criminal justice reforms and second-chance initiatives to better equip those who are leaving prisons to become law-abiding productive citizens.

6. A MORE OPEN GOVERNMENT.

Former President Barack Obama was unironically handed an award for government transparency during a private press conference. There's a reason why the worst legislation in Washington, D.C. is always crafted behind closed doors.

I, a FreedomWorks Activist, fully endorse the 2020 platform.
