

**FreedomWorks National Survey
of 1,000 Registered Voters
Conducted April 24-26, 2020**

1 Do you approve or disapprove of the way President Trump is performing his job?*

27% Strongly Approve
15% Somewhat Approve
10% Somewhat Disapprove
44% Strongly Disapprove
3% Not Sure

2 When the coronavirus pandemic first hit, government officials took aggressive steps to implement travel bans, lockdown communities, and issue stay-at-home orders. Did these steps help prevent the spread of the coronavirus and save lives?*

72% Yes
14% No
14% Not Sure

3 Is the following statement true or false?*

The latest data from public health officials shows that far more people have the coronavirus than previously thought.

76% True
10% False
15% Not Sure

4 Okay... is this statement true or false?*

The latest data from public health officials shows that people who get the coronavirus are far less likely to die than previously thought.

44% True
24% False
33% Not Sure

5 Today, is it appropriate to continue the lockdowns as they are, ease the restrictions somewhat, or end the lockdowns?*

51% Continue Lockdowns
36% Ease Restrictions
11% End Lockdowns
3% Not Sure

Conducted April 23-25, 2020 by Scott Rasmussen
Margin of Sampling Error: +/- 2.8 percentage points (for full sample)

**FreedomWorks National Survey
of 1,000 Registered Voters
Conducted April 24-26, 2020**

6 Generally speaking, would you say the lockdowns were appropriate throughout the country or only in large cities like New York with severe outbreaks of the coronavirus?*

69% Throughout the country
25% Only in large cities
7% Not Sure

7 Do you have any close friends or family members who have been drinking too much during the lockdown?*

23% Yes
63% No
15% Not Sure

8 Do you have any close friends or family members who have been severely depressed during the lockdown?*

33% Yes
49% No
18% Not Sure

9 Have you personally put on weight or experienced any health-related problems associated with the stay-at-home orders?*

35% Yes
61% No
5% Not Sure

10 How concerned are you about the health risks associated with the prolonged isolation brought on by the stay-at-home orders?*

21% Very Concerned
40% Somewhat Concerned
24% Not Very Concerned
12% Not at All Concerned
2% Not Sure

FreedomWorks National Survey of 1,000 Registered Voters Conducted April 24-26, 2020

11* *For your own mental wellbeing, how important is it for you to be able to see people face-to-face again at social settings and work environments?*

- 31% Very Important
- 42% Somewhat Important
- 19% Not Very Important
- 7% Not at All Important
- 2% Not Sure

12* *Which poses the greatest risk to public health today—continuing strict lockdowns and social isolation or easing the lockdown restrictions and gradually re-opening society?*

- 36% Continuing Lockdowns
- 54% Easing Restrictions
- 10% Not Sure

13* *[asked of those who answered Q12 by saying easing restrictions was greater risk] Suppose the strict lockdowns continue for another 60 days. At that point, will the lockdowns and social isolation create more health problems than re-opening society?*

- 45% Not Asked
- 18% Yes
- 21% No
- 17% Not Sure

Combined Results for Q12 and Q13

- 36% Continuing Lockdowns Riskier Today
- 18% Continued Lockdowns Will Be Riskier Within 60 Days
- 21% Easing Restrictions Riskier Both Now and After 60 Days
- 17% Easing Restrictions Riskier Now, Not Sure After 60 Days
- 10% No Sure

FreedomWorks National Survey of 1,000 Registered Voters Conducted April 24-26, 2020

14* *To address the concerns about alcohol abuse, the World Health Organization has urged governments to limit public access to alcohol. Another approach would be to ease the stress by relaxing some of the more extreme lockdown orders. Which would you prefer?*

- 30% Restrict Access to Alcohol
- 48% Ease Restrictions
- 22% Not Sure

15* *To address the economic problems brought on by the lockdowns, some have suggested the government should provide ongoing financial support for all who have been impacted. Others believe it would be better to ease the lockdowns so that people can return to their jobs. Which is the better approach?*

- 49% Ongoing Government Support
- 39% Ease Restrictions
- 12% Not Sure

16* *From what you know, are government officials in your area planning to continue the lockdowns for at least another 60 days?*

- 29% Yes
- 31% No
- 40% Not Sure

17* *[Asked only of those who answered yes to Q16] If the lockdowns in your state do not end soon, how likely is it that you would consider moving to a state where businesses are allowed to re-open?*

- 71% Not Asked
- 4% Very Likely
- 3% Somewhat Likely
- 4% Not Very Likely
- 16% Not at All Likely
- 1% Not Sure

18* *Have you or anyone in your immediate family lost your primary source of income as a result of the coronavirus pandemic?*

- 43% Yes
- 52% No
- 4% Not Sure

	Democrat	36%	37%
	Other	33%	31%

Methodology

The online survey of 1,000 Registered Voters was conducted by Scott Rasmussen from April 24-26, 2020. Field work for the survey was conducted by RMG Research, Inc. Respondents were selected at random from a combination of voter lists and Random Digital Engagement techniques. Certain quotas were applied and the overall sample was lightly weighted by geography, gender, age, race, and political party to reasonably reflect the nation’s population of Registered Voters. Other variables were reviewed to ensure that the final sample is representative of that population.
