1. As you may know, a new health care law was passed in 2010, known as the “Affordable Care Act” or “Obamacare.” This law contains two major mandates: an “employer mandate” that requires employers to offer affordable health insurance to their workers, and an “individual mandate” that requires all Americans to purchase a health insurance policy or pay a fine.

The Obama Administration has delayed implementing the employer mandate for at least a year. Do you favor or oppose also delaying the individual mandate for at least a year? PROBE: Is that strongly or somewhat?

3. As you may know, Congress is set to pass a spending bill as a stopgap measure called a “continuing resolution” that funds the government and avoids a temporary government shutdown. Would you prefer Congress to pass a continuing resolution that INCLUDES tens of billions of dollars¹ in funding for implementing Obamacare, or a continuing resolution that does NOT include funding for Obamacare at this time?
